

# MASTERS® SILICONE SEALANT

MASTERS® SILICONE SEALANT creates a water tight, mildew and crack resistant seal. The re-sealable, removable cap keeps product from drying out after opening. MASTERS® SILICONE SEALANT is rated for interior and exterior use from -50°F to 450°F (-45°C to +232°C).

It is ideal for:

- Tub/Shower Surrounds
- Kitchen and Bathroom Sinks
- Siding
- Window Frames
- Tiling
- Countertops

**Directions:**

- All surfaces must be clean, free of dirt, oil, old silicone and other debris that could deter adhesion.
- Cut nozzle to desired opening size and cut tip off of cartridge.
- Run a continuous bead along surface, keeping the silicone tube ahead of nozzle.
- Tool to a smooth finish. Excess, uncured sealant can be removed with solvent.
- Allow MASTERS® SILICONE SEALANT to cure fully before exposing to water, approximately 24 hours (dries to the touch in approximately 30 minutes).
- Store in a cool dry place between 40°F & 90°F (4°C & 32°C).
- MASTERS® SILICONE SEALANT is not paintable. We recommend MASTERS® Paintable Silicone (white or clear).
