

INSTRUCTION GUIDE

GARBAGE DISPOSAL TAILPIECE

Oatey

1 Measure and cut the tailpiece to the desired length. Deburr the tube end.

2 Remove the screw and flange from the garbage disposal waste connection.

3 Insert the garbage disposal gasket into the flange end of the tailpiece.

4 Slide the flange from the garbage disposal over the tailpiece.

5 Insert the flanged end of the tailpiece into the body of the garbage disposal. Tighten the two screws to secure the flange and tailpiece to the garbage disposal.

6 Connect the P-trap to tube end.

7 Check for leaks. If leaks occur, tighten another $\frac{1}{4}$ turn.
