

TRUE BLUE[®] BATH WASTE CONTRACTOR KIT

Job Name _____	Item # _____
Location _____	
Engineer _____	Contractor _____
PO # _____	Tag _____
Representative _____	

SPECIFICATIONS

The Dearborn True Blue Bath Waste contractor kits shall be used in applications requiring a bath waste and overflow drain with integrated test features. Overflow gasket shall be made of a high memory foamed rubber. Drain gasket shall be notched and undercut to wrap around drain elbow and lock into place. This will prevent gasket from being knocked off during installation and remain secured to drain elbow regardless of orientation. Test plugs shall be removable and reusable. Angle adapter and sanitary tee shall be included in kits for contractor convenience. Faceplate installation shall not require additional tools or screws; symmetrical design will eliminate the need for precise alignment. Contractor kits to be provided complete with Chrome plated stopper and overflow cover plate. Trim kits shall include one stopper and one overflow cover plate.

APPROVALS AND LISTINGS

ASME A112.18.2-2015/CSA B125.2-15

Uniform Plumbing Code (UPC[®])

National Plumbing Code of Canada

International Plumbing Code (IPC[®])
