SPECIFICATIONS

The Dearborn True Blue Bath Waste Flex PVC Full Kit with Direct Drain shall be used in commercial and residential applications requiring a bath waste and overflow drain with integrated test features. The Flexible PVC tubing shall come factory welded to the overflow elbow. Overflow and direct drain components shall come factory preassembled for added convenience. Overflow gasket shall be made of a high memory foamed rubber. Drain gasket shall be notched and undercut in order to wrap around the direct drain tee and lock into place. This will prevent gasket from being knocked off during installation and remain secured to drain elbow regardless of orientation. Test plugs shall be quarter turn installation and must be removable and reusable. Faceplate installation shall not require additional tools or screws, symmetrical design will eliminate the need for precise alignment.
