

DUAL-STAGE PRESSURE RELIEF VALVE

FEATURES

- Industry first Dual-Stage Pressure Relief Valve (PRV) engineered specifically for pipe plugs
- Precision open and close
- Wide open when pressure is released
- Resets quickly and securely at or just above inflation pressure
- Internal filter assemblies prevent debris from causing damage or preventing reset
- Made of aluminum and stainless steel
- Field replaceable
- Left-hand threads for tamper resistance and to prevent misuse
- Prevents against over inflation and under inflation
- Overcomes high CFM air compressors

Part Number	Description
240078	PRV for plugs with inflation pressure up to 12 PSI
240088	PRV for plugs with inflation pressure up to 25 PSI
240108	Replacement kit to change from Rupture Disc to PRV on I-Series Test-Ball® (15–32" to 24–60")

* If PRV is desired on 15"–32" and larger diameter Air-Loc® plugs made before 4/1/2019, the plug will need to be converted from Rupture Disc to PRV at the plant. Contact customer service for more information.

* Muni-Ball® plugs with 6" bypass will need to be converted from Rupture Disc to PRV at the plant. Contact customer service for more information.
